TEAM CUB SPRAYER

Simple, efficient and reliable.

The Team Cub Sprayer features an adjustable pressure control system and two pneumatic wheels ensuring constant, accurate liquid application.

Specifications
25L tank (removable)
2M 4 nozzle folding boom
12V diaphragm pump
Adjustable pressure control
12V quick charge battery and charger

TEAM SCOUT SPRAYER

Accuracy and manoeuvrability as standard.

The Team Scout comes with an adjustable pressure control system and two pneumatic wheels ensuring constant, accurate liquid application with the option of adding a third 'jockey type' wheel to increase manoeuvrability.

Specifications
60L tank
2M 4 nozzle folding boom
12V diaphragm pump
Adjustable pressure control
12V quick charge battery and charger
Optional 2 wheel version

TEAM ELY SPRAYER

Accuracy and manoeuvrability as standard.

The Team Ely comes with an adjustable pressure control system and two pneumatic wheels ensuring constant, accurate liquid application with the option of adding a third 'jockey type' wheel to increase manoeuvrability.

Specifications

90L or 120L tank
2M 4 nozzle folding boom
12V diaphragm pump
Adjustable pressure control
12V quick charge battery and charger
Optional 3 wheel version

TEAM VIXEN SPRAYER

Efficient, reliable, low ground pressure application.

The Team Vixen Sprayer has the ability to spray in either forward or reverse direction making it ideal for areas of limited access.

Specifications

150L main tank
3m 6 nozzle folding boom
Colour coded triple nozzle assemblies with anti-drip check valves
24V powered axle with forward and reverse controls
Low ground pressure tyres
Spring loaded break-back booms protect against accidental damage.
The standard 23 LPM, 24V diaphragm pump has an adjustable pressure system and gauge.
Quick charge LFP battery system, handle mounted battery level indicator and pump flow valve for tank agitation or boom spray

Pedestrian

Cub, Scout and Ely options:
